

Adavis AI Platform

Complete API Endpoint List (Phase-1: MDM + Auth)

1. AUTH MODULE

Authentication

```
POST /api/auth/v1/login
POST /api/auth/v1/logout
POST /api/auth/v1/refresh-token
```

Password Management

```
POST /api/auth/v1/password/set // first-time set (invite/reset)
POST /api/auth/v1/password/change
POST /api/auth/v1/password/forgot
POST /api/auth/v1/password/reset
```

Account Control

```
PATCH /api/auth/v1/users/{userId}/block
PATCH /api/auth/v1/users/{userId}/unblock
PATCH /api/auth/v1/users/{userId}/deactivate
PATCH /api/auth/v1/users/{userId}/activate
```

Session & Login Tracking

```
GET /api/auth/v1/sessions
GET /api/auth/v1/login-attempts
```

2. LICENSE MODULE

License Management

```
POST /api/mdm/v1/license/activate
GET /api/mdm/v1/license
GET /api/mdm/v1/license/modules
GET /api/mdm/v1/license/validate // internal/gateway
GET /api/mdm/v1/license/history
PATCH /api/mdm/v1/license/user-count // internal
```

3. USER MANAGEMENT

Users

```
GET /api/mdm/v1/users
GET /api/mdm/v1/users/{userId}
POST /api/mdm/v1/users
PUT /api/mdm/v1/users/{userId}
DELETE /api/mdm/v1/users/{userId} // soft delete
```

User Profile

```
GET /api/mdm/v1/users/{userId}/profile
PUT /api/mdm/v1/users/{userId}/profile
```

User Group Assignment

```
GET /api/mdm/v1/users/{userId}/groups
POST /api/mdm/v1/users/{userId}/groups // add groups
DELETE /api/mdm/v1/users/{userId}/groups/{groupId}
PATCH /api/mdm/v1/users/{userId}/groups/{groupId}/primary
```

4. GROUP MANAGEMENT

Groups

```
GET    /api/mdm/v1/groups
GET    /api/mdm/v1/groups/{groupId}
POST   /api/mdm/v1/groups
PUT    /api/mdm/v1/groups/{groupId}
DELETE /api/mdm/v1/groups/{groupId}
```

Group Members (UI: Add/Remove Members)

```
GET    /api/mdm/v1/groups/{groupId}/users
POST   /api/mdm/v1/groups/{groupId}/users // add members
DELETE /api/mdm/v1/groups/{groupId}/users/{userId}
```

Group Roles (UI: Add/Remove Roles)

```
GET    /api/mdm/v1/groups/{groupId}/roles
POST   /api/mdm/v1/groups/{groupId}/roles // assign roles
DELETE /api/mdm/v1/groups/{groupId}/roles/{roleId}
```

5. ROLE MANAGEMENT

Roles

```
GET    /api/mdm/v1/roles
GET    /api/mdm/v1/roles/{roleId}
POST   /api/mdm/v1/roles
PUT    /api/mdm/v1/roles/{roleId}
DELETE /api/mdm/v1/roles/{roleId}
```

Role Hierarchy

```
GET    /api/mdm/v1/roles/{roleId}/hierarchy
PATCH /api/mdm/v1/roles/{roleId}/parent
```

6. MODULES / SCREENS / FEATURES

Modules (Preloaded)

```
GET    /api/mdm/v1/modules
```

Screens

```
GET    /api/mdm/v1/screens
GET    /api/mdm/v1/screens/{screenId}
POST   /api/mdm/v1/screens
PUT    /api/mdm/v1/screens/{screenId}
DELETE /api/mdm/v1/screens/{screenId}
```

Features

```
GET    /api/mdm/v1/features
GET    /api/mdm/v1/features/{featureId}
POST   /api/mdm/v1/features
PUT    /api/mdm/v1/features/{featureId}
DELETE /api/mdm/v1/features/{featureId}
```

7. ROLE PERMISSIONS

Assign Permissions to Role

```
POST /api/mdm/v1/roles/{roleId}/permissions
PUT /api/mdm/v1/roles/{roleId}/permissions
```

Get Role Permissions

```
GET /api/mdm/v1/roles/{roleId}/permissions
GET /api/mdm/v1/roles/{roleId}/permissions/history
```

8. EFFECTIVE PERMISSIONS (USER LEVEL)

Resolve Permissions

```
GET /api/mdm/v1/users/{userId}/permissions
```

Refresh Cache

```
POST /api/mdm/v1/users/{userId}/permissions/refresh
```

9. BULK OPERATIONS

Upload Jobs

```
POST /api/mdm/v1/bulk/users/upload
POST /api/mdm/v1/bulk/groups/upload
POST /api/mdm/v1/bulk/group-role/upload
```

Job Status

```
GET /api/mdm/v1/bulk/jobs
GET /api/mdm/v1/bulk/jobs/{jobId}
```

10. AUDIT LOGS

Audit

```
GET /api/mdm/v1/audit-logs
GET /api/mdm/v1/audit-logs/{entityId}
```

11. MASTER DATA

Departments

```
GET /api/mdm/v1/departments
POST /api/mdm/v1/departments
PUT /api/mdm/v1/departments/{deptId}
DELETE /api/mdm/v1/departments/{deptId}
```

FINAL FLOW (END-TO-END)

```
Login
  → License Validation
  → Fetch User Groups
  → Resolve Roles (Hierarchy)
  → Fetch Role Permissions
  → Merge Permissions
  → Apply License Filter
  → Return UI Access
```

FINAL SUMMARY

- ✓ Covers ALL UI operations
- ✓ Fully aligned with schema
- ✓ Scalable microservice endpoints
- ✓ Supports:
 - RBAC
 - License enforcement
 - Audit compliance
 - Bulk operations
- ✓ Ready for production deployment
